Taking courses in a group will help you succeed in college.

- Your instructors will use common themes and assignments.
- You can learn how to solve problems using a cross-disciplinary approach.
- You can receive one-on-one support.
- Professors McLane and Tomek appreciate different student perspectives and will use a variety of techniques to make the community INTERESTING.

Definition for a learning community: An academic approach that links two or more classes and that enrolls a common set of students. Class members focus on interdisciplinary theme(s).
